1. The University of Alaska Fairbanks is currently in the process of reviewing the campus master plan. The plan is being updated to reflect the current needs of the campus and the surrounding community. The plan is being developed in a collaborative manner with the campus community and the surrounding community. The plan is being developed in a timely manner and is expected to be completed by the end of the fiscal year 2003.

*Completion: FY03 and Ongoing*

The University of Alaska Fairbanks is currently in the process of reviewing the campus master plan. The plan is a comprehensive document that outlines the university's long-term vision and goals. It includes a detailed analysis of the current campus and identifies areas for improvement. The plan also provides a clear roadmap for the future, including the location and design of new buildings and the expansion of existing facilities. The university is committed to creating a world-class campus that meets the needs of its students and faculty.

Completion: FY02-07

Completion: FY03

1. The building is located on the east side of the campus, adjacent to the existing library building. The building will be a two-story structure with a total area of approximately 100,000 square feet. The building will house the new library collections and provide a space for study and research. The building will be designed to be energy efficient and accessible. The building will be completed in FY03.
